

REMARKS

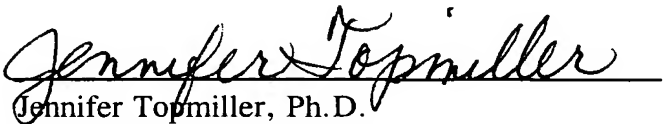

Entry of the foregoing and favorable examination of the subject application on the merits is respectfully requested.

By the present amendment, the specification and Claim 11 have been amended to correct a minor typographical error in the deposit number of the strain *Lactobacillus plantarum* LB931. The correct deposit number is listed on the attached copy of the deposit receipt and is correctly referenced in applications SE9703669-3, SE9502588-8, WO92/13577, SE9801951-6, SE9804390-4, and SE9902207-1. These documents have all been cited in the present application on page 1. SE9902207-1 is further cited as a priority document on the cover sheet of the present application. Accordingly, no new matter has been added.

In the event that there are any questions concerning this amendment or the application in general, the Examiner is respectfully requested to telephone the undersigned so that prosecution of the application may be expedited.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.

Date: January 15, 2002

Attachment to Supplemental Preliminary Amendment dated January 15, 2002

Marked-up Copy

Paragraph Beginning on Page 4, Line 11

The active additive may, for instance, be a micro-organism. According to one preferred embodiment, the active additive is an acid producing micro-organism. According to a more preferred embodiment, the active substance consists of lactobacilli. In an even more preferred embodiment, the active additive consists of lactobacilli of the strain *Lactobacillus plantarum* LB 931 (deposition No. (DSM): [41918] 11918).

Attachment to Supplemental Preliminary Amendment dated January 15, 2002

Marked-up Claim 11

11. (Amended) An absorbent article according to Claim 1, wherein the active additive is a lactobacillus of the strain [lactobacillus] Lactobacillus plantarum LB 931 (DSM No. [41918] 11918).
